## Profile Summary

I have a degree in Computer Science with a strong interest in software development. Since completing my bachelor's degree, I have continually expanded my experience through personal projects and online courses, strengthening my technical and practical skills. I am enthusiastic about exploring new technologies and concepts, effectively applying them to real-world challenges. I constantly seek out experiences that allow me to hone my skills and deliver quality solutions. Outside of work, I value moments with friends and family, which provide me with balance and inspiration to tackle projects and opportunities with renewed energy and focus.
